Ref.39868-1N/54 dated 29-5-'54.

Sir,

Sub: Nursing staff - Government Hospital, Puttur, (South Kanara District) - Employment of an additional nurse - Sanction - Requested.

I have to state that the sanctioned bed strength of the Government Hospital, Puttur in South Kanara District is 33, and the actual daily average of the inpatients treated in the hospital during 1953 was 39. The hospital with a sanctioned bed strength of 33, is eligible for four nurses on the approved scale of one nurse for every 8 beds in institutions which are not training centres for nurse pupils. However, two nurses only have been sanctioned for it. One of them is incharge of the male ward while the other looks after the female ward during day time. As it is, none of them could be posted for night duty. The position becomes worse when one of them falls sick or is otherwise absent on leave, when the entire brunt of the work will have to be borne by a single nurse. In order to ensure efficient nursing to the patients both during day and night and to relieve undue strain on existing two Nurses, it is essential to have the full compliment of nurses admissible to the hospital according to the approved scale. But in consideration of the present financial stringency, I recommend, for the sanction of the Government the employment of one additional nurse in the Government Hospital, Putfur temporarily for a period of one year from the date of appointment.

2. The extra cost involved to the Government on the proposal is furnished in the statment.

Yours faithfully,

For Director of Medical Services.
